## 'Home **2** Home' With Seniors Own Real Estate

Most people usually need to sell their existing home before they can buy another in a retirement village. If you are in a similar position then we can help to make the whole process a lot easier for you.

When you appoint Seniors Own Real Estate, or one of our Accredited Agents, we can coordinate the sale and settlement of your current property so that you can move straight into your new home.

### Here's how we do it

You first decide upon the new home you wish to purchase. We then arrange for an appraisal of your current home to determine its market value and agree on a realistic selling price that is acceptable to you.

Together we complete the necessary paperwork to secure your new home and to enable us to find a buyer for your existing property.

If your new home is being built, we will look for buyers who are prepared to wait to take possession until you move into your new home. These buyers could also be willing to settle early, allowing you to rent back or, alternatively, settle just prior to your move. Whatever the case, we'll endeavour to find a buyer that best suits your circumstances and will assist in making your '**Home 2 Home**' move much easier.

### Getting organised and ready to sell

Besides helping you to coordinate your sale and '**Home 2 Home**' move, we can also assist you in many other ways.

First impressions are very important, so in order to maximise the selling price of your current home, it is important that it presents well.

We can offer you advice on presentation and, if necessary, help you to arrange reliable people to do most of the things you may need to do in and around your home:

- Gardening and rubbish removal
- Window, carpet and house cleaning
- Painting
- Clearing gutters
- Any other minor maintenance work
